

**QUALIFICATION SAQA ID 23095
DEVELOPMENT PRACTICE NQF 5, 120 CREDITS**

At least 12 months to complete and be able to:

1. Demonstrate a critical understanding of theories and principles of transformative development that include identifying, explaining and evaluating factors that impact on macro and micro layers of society and development practice as well as critiquing strategies and policies used.
2. Plan and conduct research activities that will redress social development issues by preparing a brief, research guidelines and instruments for a development practice project, and evaluating the research through a report for relevant stakeholders.
3. Plan learning programmes that redress social development issues focusing on how adults and youth learn when preparing the learning outcomes.
4. Prepare learning support materials for programmes in development practice.
5. Plan the facilitation of learning in development practice in consultation with all relevant stakeholders.
6. Plan the facilitation of workshops and advocacy campaigns.
7. Plan and conduct assessment of learning outcomes.

At least NQF Level 4 in development practices or any other recognized education qualification at NQF Level 4.

This is equivalent to Grade 12 (Matric).

The qualification will further enable a learner to plan to facilitate learning programmes that will lead to community groups and individuals achieving full qualifications.
